ABOUT US

The Best In Class Manufacturing Plants

As one of the biggest manufacturing units in India, Saera has three state-of-the-art plants. The first plant is located in Bhiwadi, Rajasthan and has a production capacity of 24000 units. Our second plant is based at Bawal, Haryana and has a total production capacity of 2,36,000 units in India. Lastly, our third plant is located in Kosi, Uttar Pradesh, which has started rolling out production.

The electric vehicles manufactured by Saera are designed and assembled by using cutting-edge technology prevalent in our industry.

India's most advanced engineering capabilities

Saera Electric Auto : An ISO 9001: 2015 Certified Company

With primary engagement in assembling and manufacturing for a cleaner and greener India, we are an ISO 9001: 2005 accredited company.

Technical Details

- Monocoque frame
- LED headlight and brake lights
- Leatherette roof to give luxurious feel
- Aerodynamic & most eye-catching looks
- 10 inch all terrain tyres with alloy wheels
- Maintenance full AC drive system
- Re-programmable controller with hill assist controls

Single piece roof without any joints no problem of water leakage through joints

Rear view mirror in the centre as well as sides

Digital speedometer first in segment feature with battery level indicator

Inside of the roof is covered with tricot knitted fabric to enhance luxury of the vehicle
